

AN INTERVIEW
WITH DEMARIS
& AMINTA BY
ALLAN CHUNG-
YEW

WHAT DO YOU
LOVE ABOUT
YOUR WORK?

We love working at the JRMC because I know the community is getting more than just medical health services here. The people of the community are being given holistic health care, care that goes beyond the medical center such as physicals so children can attend school. It does not discriminate against people.

WHAT WOULD YOU LIKE TO TELL THE COMMUNITY ABOUT THE JRMC?

The JRMC accepts anyone no matter what their preexisting conditions are, disabilities, where they are from, or their income. I love how affordable our care is and that the JRMC goes above and beyond to help our patients even if they are illegal, have an active visa, or legally here. We even find the best referrals if we do not have adequate services for the needs of our clients.
