

## Lizbeth and Allan

We joined AmeriCorps because we wanted to give back to the community and help those in need. The current agenda for AmeriCorps is to promote a healthy community and we want to help meet that goal here at the JRMC.

*“I am currently a nursing student and an AmeriCorps member. The goal of the JRMC sounded like a good fit for me because as a future nurse I will be caring for people living in my community. I believe I will be developing my communication skills as a community outreach volunteer for the marketing team at the JR Medical Center.”— Allan*

*“Joining AmeriCorps wasn’t a need but an honor being accepted into it. I feel like it was right to join AmeriCorps and especially to come on board at the JRMC site. Being a biology major in hopes of making it into dentistry, will not only help me gain experience communicating with patients but also to learn from others who love their job to promote a healthy community. My goal for the end of my service is to feel like I assisted in as many ways as I could, to inform patients on how important it is to keep up with their health.”—Lizbeth*
